

LAAL NIACINAMIDE+ — BOX PANEL ARTWORK

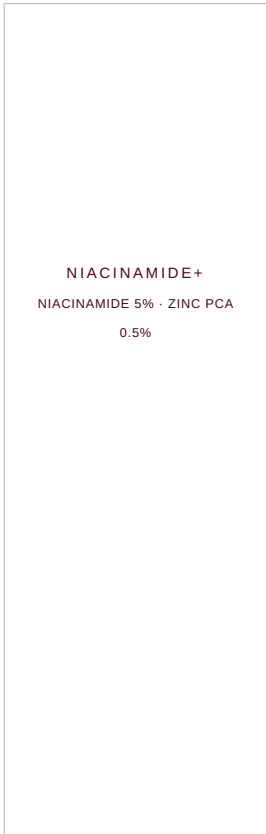

Tuck-end carton, 300–350 GSM art card, matte lamination, white stock, no foiling. Panel size **35 × 110 mm** — adjust to your dieline template and confirm against bottle height with dropper cap fitted. Panels shown flat at actual size, in wrap order: front, side 1, back, side 2.

FRONT PANEL

35 × 110 mm

SIDE 1

35 × 110 mm

BACK PANEL

35 × 110 mm

SIDE 2

35 × 110 mm

For the printer: place these four panels on your standard tuck-end dieline in the order shown, plus glue flap and tuck/dust flaps. Print the لعل monogram on one top flap. Leave the batch/mfg/exp box clear if these are over-printed or stamped at filling — confirm your method. Colours: oxblood #4A0A12 (CMYK 0/87/76/71) and ruby #8C1C35 (CMYK 0/80/62/45) on unprinted white stock. One physical printed sample required before the full run.
