

1 · PURPOSE AND SCOPE

LAAL is a Pakistani skincare brand selling two face serums. This document specifies what the website must do, what it must contain, and how it must look. Anything not listed here is out of scope for the first release and should be raised before it is built.

Primary goal	Take orders and payment for two products, Pakistan-wide.
Secondary goals	Explain the products credibly to a first-time visitor; give clinics and stockists a way to make contact; establish the brand as transparent about ingredients.
Primary users	Retail customers on mobile, aged roughly 18–40, in Pakistan.
Secondary users	Aestheticians, dermatologists, salons and pharmacies considering stocking.
Devices	Mobile first. Assume 80%+ of traffic is a phone on a mid-speed connection.
Languages	English only in v1. Urdu not required.

2 · BRAND AND VISUAL IDENTITY

COLOURS

NAME	HEX	USE
 Oxblood	#4A0A12	Headings, logo, primary text, footer background
 Ruby	#8C1C35	Buttons, links, accents, the "+" in product names
 Blush	#FAF1F2	Section backgrounds, cards
 White	#FFFFFF	Page background — the site is predominantly white
 Ink	#241B1C	Body text
 Muted	#7C6B6D	Secondary text, captions, disclaimers

TYPOGRAPHY

- **Headings and product names** — a serif face. Lora, Cormorant Garamond or similar. Not a display or script font.
- **Body text** — a clean sans-serif. Inter, Source Sans or system stack.
- **Labels, buttons, navigation** — sans-serif, uppercase, letter-spaced (0.15–0.2em).
- Minimum body size on mobile: **16px**. Never smaller.

LOGO FILES SUPPLIED

- **LAAL_monogram.svg** — the ل ل Kufic mark alone. Use for favicon, loader, small placements.
- **LAAL_lockup.svg** — monogram plus LAAL wordmark. Use in the header.
- Both are vector. Do not raster them, do not recolour them, do not add effects or shadows.
- Minimum clear space around the logo equal to the height of the letter "L" in the wordmark.

tone and imagery

- Calm, clinical, honest. Generous white space. No stock photos of models with perfect skin.
- No before-and-after imagery, no skin-tone comparisons, no words implying lightening or fairness anywhere on the site.
- Photography: product on plain white or marble, hands holding the bottle, flat lays. Bottle is amber glass with a black dropper.

3 · SITE STRUCTURE

PAGE	URL	CONTAINS
Home	/	Hero with brand line, both products, why LAAL (3 points), how to order, trust strip, footer
Niacinamide+	/niacinamide	Full product page — see section 4
Hyaluronic+	/hyaluronic	Full product page — see section 4
Shop / Both	/shop	Both products plus the pair bundle, add to cart
About	/about	Why the brand exists, manufacturing and testing, what is never in a LAAL bottle
Ingredients	/ingredients	Plain-language explanation of every active, full INCI for both products
Stockists	/stockists	For clinics, salons and pharmacies — enquiry form
Contact	/contact	WhatsApp, email, enquiry form
Cart / Checkout	/cart	See section 5

Order confirmation	/order/success	Order number, what happens next, WhatsApp link
Policies	/shipping, /returns, /privacy, /terms	Four short static pages

4 · PRODUCT PAGE — REQUIRED SECTIONS IN ORDER

P-01	Product image gallery — minimum 3 images, zoomable on mobile
P-02	Product name with the "+" in ruby; active line beneath (e.g. "Niacinamide 5% · Zinc PCA 0.5%"); one-line descriptor
P-03	Price, size (30 ml), and add-to-cart button. Price must be visible without scrolling on mobile.
P-04	Short description — 2 to 3 sentences
P-05	What it does — 3 to 4 points, each a mechanism in plain language
P-06	What to expect and when — timeline by week
P-07	Who it is for / who should wait — two columns, both shown, not hidden behind a tab
P-08	How to use — AM and PM steps
P-09	Full ingredient list (INCI) — always visible, never collapsed
P-10	Patch test notice and storage line
P-11	Cross-sell — "pairs with [other product]" with a link
P-12	FAQ accordion — 6 to 10 questions

Content will be supplied by LAAL as text for every section above. The developer builds the structure; the copy comes from our product catalogue. Do not write product claims independently.

5 · ORDERING AND CHECKOUT

FUNCTIONAL REQUIREMENTS

F-01	Add to cart from product page and shop page; cart persists on refresh
F-02	Cart shows line items, quantity adjust, remove, subtotal, delivery charge, total
F-03	Guest checkout — no account required. Account creation must not be forced at any point.
F-04	Checkout fields: full name, WhatsApp number, email (optional), full address, city, province, order notes
F-05	Payment methods: Cash on delivery, Easypaisa, JazzCash, bank transfer. For the three non-COD methods, show account details and allow the customer to upload a payment screenshot.
F-06	Delivery charge rules configurable in admin: flat charge below a threshold, free above it, COD surcharge
F-07	On order placement: unique order number generated; confirmation page shown; email to LAAL; WhatsApp-ready order summary the customer can send with one tap
F-08	Stock control — each product has a quantity; when it reaches zero the product shows "Sold out" and cannot be added to cart
F-09	Discount code support — percentage or fixed amount, with expiry and usage limit
F-10	Order status values: Pending payment, Confirmed, Packed, Dispatched, Delivered, Cancelled. Customer notified by WhatsApp or email on Dispatched, with tracking number.

ADMIN PANEL

- Secure login for two users. Password reset by email.
- Orders list — filter by status, search by name, number or phone; view full order; change status; add tracking number and internal notes.
- Edit product price, stock quantity, description and images without developer help.
- Export orders to CSV or Excel.
- View uploaded payment screenshots against each order.

6 · STOCKIST ENQUIRY

- Separate page and form, distinct from customer contact.
- Fields: business name, type (clinic / salon / pharmacy / distributor / other), contact person, WhatsApp, city, expected monthly volume, message.
- Submission emails LAAL and shows a confirmation message. No prices shown publicly on this page — the reply is handled manually.

7 · NON-FUNCTIONAL REQUIREMENTS

N-01	Mobile-first responsive. Must be tested on a real mid-range Android phone, not only a desktop browser resized.
N-02	Home page loads in under 3 seconds on a 4G connection. Images compressed and served in WebP where supported.

N-03	HTTPS across the whole site. SSL certificate installed and auto-renewing.
N-04	Works on Chrome, Safari, Firefox and Edge, current and previous version.
N-05	Basic SEO — unique page titles and meta descriptions, semantic headings, alt text on every image, XML sitemap, robots.txt.
N-06	Google Analytics (or equivalent) and Meta Pixel installed.
N-07	Automated daily backup of database and uploads, retained 30 days, restorable.
N-08	Form spam protection (honeypot or captcha). Rate limiting on checkout.
N-09	Customer data stored securely; no card data stored on the site at any point.
N-10	Floating WhatsApp button on every page, opening a chat with a pre-filled message.

8 · CONTENT AND COMPLIANCE RULES

These are not stylistic preferences. Breaking them creates regulatory and reputational risk for the brand.

- **No fairness, whitening, lightening, brightening or "glow" language** anywhere on the site, including alt text, meta descriptions and image filenames.
- **No medical claims.** Products may be described as helping the appearance of a concern; they must never be described as treating, curing or preventing any condition.
- **No before-and-after photographs** and no skin-tone comparison imagery.
- Full INCI must be visible on every product page — not hidden inside an accordion or a tab.
- Patch-test advice must appear on every product page.
- Testimonials only with the customer's written permission; never fabricated.
- Any laboratory testing must be described accurately — testing of a formulation must not be presented as testing of every batch.

9 · DELIVERABLES, TIMELINE AND ACCEPTANCE

DEVELOPER DELIVERS

- Working website on laalcosmetics.com with SSL
- Admin panel with two accounts created
- All source files and database access
- Hosting and domain credentials handed over in writing
- A short handover walkthrough of the admin panel
- 30 days of bug fixing after launch at no charge

LAAL SUPPLIES

- Logo files (SVG), colour codes, this document
- All product copy and ingredient lists
- Product photographs
- Policy page text
- Payment account details
- Domain and hosting access if already purchased

ACCEPTANCE CRITERIA

The site is accepted when a test order can be placed end to end on a real phone using each of the four payment methods; the order appears in the admin panel with the correct total and delivery charge; the status can be changed and a tracking number added; the stockist form delivers an email; and the home page loads in under three seconds on 4G. Payment on completion is subject to these criteria being met.

OUT OF SCOPE FOR VERSION 1

Customer accounts and order history, product reviews, blog, Urdu translation, subscriptions, loyalty points, multi-currency, and integration with courier APIs. These may be added later and are not part of the current price unless separately agreed in writing.
